CONDITION OF THE MARKETS

Speculative Wheat Opens Higher, but Loses Nearly All the Advance.

Spot and May Close Lower-Corn Steadily Declines After the First-Oats Lower-Pork Dull and Weaker.

MONEY, STOCKS AND BONDS Large Volume of Business and a Gain in Price on Nearly All Shares. NEW YORK, May 17.-Money on call was easy, with no loans, the closing being | 105,606 bu; sales, 3,048,000 bu futures offered at 3 per cent.

Prime mercantile paper 5@7 per cent. Sterling exchange quiet and steady at \$4.84 for sixty-day bills and \$4.86 for de-

The total sales of stocks to-day were 305,-186 shares, including the following: Atchison, 18,260; Delaware, Lackawanna Western, 7,807: Louisville & Nashville, 3,900; Missouri Pacific, 3,613; Northern Pacific, 12,845; Northern Pacific, preferred, 9,840; Oregon Transcontinental, 32,640; Reading, 73,820; Richmond & West Point, 8,335; St. Paul, 6,700; Union Pacific, 5,810. The stock market, even although to-day was a half holiday, managed to maintain

the large volume of business of the past week, and while the movements of prices were somewhat irregular there was strong undertone, which, before the close, swept everything before it, and further advances resulted, while many stocks reached their highest prices for the week. The foundation of the "bull" movement the railroad earnings, continue to show the same material increase over those of last year. The "bulls" also continue to fight shy of the stocks of the warring roads that are cutting rates in the West. The market to-day was unusually plentifully supplied with rumors for a short session, and among them may be noted a story that a deal favorable to the Villard stocks is to be consummated next week, which served as the basis for a most marked advance in Northern Pacific and Oregon Transcontinental, which became the features of the market after 11 o'clock. Reading was the most active stock, its transactions exceeding those of any full day of the week, on rumors relating to merger or agreement with other powerful companies, and there was a material gain made in its price. The market started off with slight advances, but there was some selling off in Reading and the grangers, apparently for foreign account and Chicago Gas and Sugar were weak and retarded the further improvement until the strength in Reading had been fully devel-oped. The Villards afterward joined in the upward movement, and later the advanc-ing tendency extended to all portions of the list, and even trusts felt the stimulus. The bank statement, which had promised to be unfavorable, showed a small increase in the surplus reserve, and helped to give the market a buoyant tone toward the close, which was active and strong in most cases at the best prices of the day, The final changes are generally small ad vances, the declines being few in number while Northern Pacific preferred is up 214; Oregon Transcontinental, 2; Northern Pa-cific commou, 178; Reading, 138, and Mexi-

can Central, 1 per cent.

The transactions in railroad bonds were also large and fully up to the average of the week, aggregating \$1,574,000, of which Reading fours contributed \$302,000, and the incomes, \$170,000; Atlantic and Pacific inomes, \$180,000, and the Atchison incomes \$107,000. The market was firm, with few marked changes in quotations. Ohio Southern firsts rose 234, to 11134. The sales of bonds for the week aggregated \$16,513, Government bonds were dull and steady. State bonds were neglected. Closing quotations were:

TRADING AT CHICAGO. Wheat Higher, but Corn and Oats Lower-

Hog Products Dull and Weak.

CHICAGO, May 17.—Trading in wheat was again large to-day, especially during the early part of the day, and prices were higher. July opened 2c higher, but the advance brought out free offerings, under which prices declined irregularly 134c, then improved 12c, eased off 34c, and the closing was 1sc higher than yesterday. May closed 120 lower than yesterday and June unchanged. The dry weather scare again had its influence on the market and caused an excited opening, but advices later in the session reported rains and snow in the Northwest, and had the effect of creating a weaker feeling. Snow was report ed in Cass. Ransom and Barnes counties. Dokota, which, it is claimed, makes the Northwest all right for the present. Corn was fairly active, and a little unsettled early, but became more quiet and easy later. Operations I were mainly lo-cal, as, also, were the influences that affected values. INDIANAPOLIS MARKETS.

The Trade of the Week Not Very Satisfac-

INDIANAPOLIS, May 17.

Trade in all departments in the week closing today was spasmodic in its character, a brisk day's trade being followed by a dull one. Warmer weather is doubtless the stimulant needed. Prices have ruled steady on most lines. In dry-goods everything carries a firm tone. In groceries, coffees are the only staple article which shows any real weakness. Canned goods and dried fruits, which are usually dull and sell low in May, are firm in tone and meeting with remarkably good sale for so late in the season. The hide market is weaker in tone here, while reports from the East show a firmer tone. An advancing leather market is indicated; the position of all grades of leather is strong, and East, slight advances have already been estab-lished. The hardware and iron markets are active, with firm prices ruling. The produce markets are active. Poultry and Changed.

Wheat—Receipts, 56,400 bu; exports, ccipts light, which indicates a continued firm market. Cabbages are still in light supply and prices exorbitant. Other vegetables in fair supply and prices easy, especially for green stuff. Oranges are in good request; receipts are falling off and prices tend higher.
